

Sign in to Qualia Connect With Your Email Provider

Signing in with your email provider using open authorization, or OAuth, provides a secure authentication method and allows users secure access to Connect without having to set up and remember a new password for their closing portal.

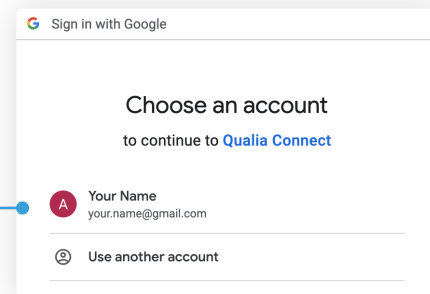

1. Click on Access Your Closing in the email you received from your title company to get started.

2. To set up your account, check the box to agree to the terms of service and then select Sign in with your chosen email provider.

3. Choose your current email address and follow the prompts to create an account using your email provider.

You can now use your existing email account to sign in with Qualia Connect without needing to remember an extra password.

Note: The email address on the account you are trying to sign in with must be the same as the email address that was sent the invitation to join Connect. Current Connect users can also link their account with this method using the same email address on their Connect account.
